## COVERKING ADVANTAGE

Coverking's custom car covers are made to protect vehicles from hazardous conditions while ensuring a clean, durable, custom fit.

- Coverking chooses to use fewer, larger pieces of fabric than our competitors to reduce the amount of seams in your cover.
- All outdoor covers are sewn using double needle and overlapped seams, resulting in a durable, leak resistant seam which has a backup stitch if the main stitch fails.

- Coverking developed the widest selection of custom car cover materials, choosing to engineer it's own fabrics instead of relying on "off the shelf" materials.

## CUSTOM & UNIVERSAL

A universal cover is designed for the "average car" that is approximately the same size as your car. There won't be any allowances for any unique features on your car. A custom cover is made specifically for your model.

Lifetime repair program. See page 99.

## TRUE CUSTOM PATTERNS

Like a fine suit, your cover is made to fit the curves and features of your vehicle. One of Coverking's pattern designers spent time with your model vehicle and used 3D scanners to record every compound curve and detail. That data is then used to create a world-class cover with the fewest seams possible. Custom mirror and antenna pockets are sewn in to allow the cover to rest snugly on your vehicle's exterior.

# GRAPHIC COVERS

Coverking is taking customization to a whole new level with the industry first digitally-printed car cover. With advance 3D scanning technology, we are able to create, panel by panel, a graphical replica of popular vehicles. Each curve, line and contour has been digitally mastered by our design team to reflect the exact scaling of the actual vehicle. The result is the perfect harmonious juxtaposition of art and car.

# AVIATION COVERS

The proven fit and quality of Coverking custom vehicle covers are also available for the aviation industry. A Coverking pattern maker is available to visit your aircraft to take measurements for a perfect fit. We are close to Orange County John Wayne (SNA), Long Beach (LGB), Ontario (ONT), and other airports in Southern California.

# CUSTOM A/C COVERS

Covering your air conditioning unit is part of good A/C winter care. Covers keep out dirt, insects, leaves and debris that otherwise invade, accumulate and leave deposits inside the unit and on coils. Without a cover, wind and rain drive contaminants further inside—into and between coils, posing a real hindrance to efficient cooling. A cover will also protect the exposed cabinet and extend the life of your AC in function and appearance.

**“Protects from the hot sun and reduces glare. Fits right in just like from the factory. PERFECT!”**

**“ZIG-ZAG” STITCH**  
We use this more difficult stitch that acts as a hinge that allows the material to follow the contours of the dash perfectly.

**“BLIND” STITCH**  
Our competitors use this easier stitch, which causes the material to lift off the dash - causing poor fit and performance.

# KRYPTTEK

## KRYPTTEK® CUSTOM SEAT COVERS

The new Skanda ensemble includes the stealth camouflage series of Kryptek Highlander, Mandrake and Typhon. Designed for the elite soldier, the Kryptek camo features transitional terrain made with geometrical foregrounds to create three dimensional effects seen in the wild. We apply the very same design used for combat concealment and combined it with our heavy-duty Cordura Ballistic seat covers, the rugged material made to withstand even the highest levels of abuse. The result – the edgiest custom seat cover ever made.

# WARRANTY & RETURNS

## 0-30 DAYS: Return Custom & Universal Products

You may return products(s) for any reason within the first 30 days from delivery for a partial refund (minus the cost of shipping and a 15% restocking fee). A full refund will only apply if the product is determined to be defective in material or workmanship. If a defect is suspected within the first 30 days from delivery, we will require pictures of the item so our product team may validate the defect and evaluate the cause. Every effort is made to expedite defective evaluations. In the case of a defect within the first 30 days from delivery, Coverking will either return and refund, or repair and/ or replace the item at our expense.

## Warranty Period

Coverking warrants our products to be free from defects in material or workmanship to the original purchaser for a period specific to that product. All warranty claims will be evaluated by Coverking. If a determination is made to cover an item under warranty, Coverking will repair or replace the item at Coverking's sole discretion. Refunds will not be issued. The warranty is void if the product has been damaged by accident, misuse, abuse, or other abuses not arising out of defects in material or workmanship and does not cover everyday wear and tear.

## Coverking Care Lifetime Care

After the warranty period expires, Coverking offers repair or replacement on pro-rated basis. To request post warranty repair please submit a support ticket at [support.coverking.com](http://support.coverking.com).
